290 - REMOVAL OF PROHIBITED FOREIGN PRODUCTS STANDARD

Purpose

Pursuant to Governor Evers' Executive Order #184, the Removal of Prohibited Foreign Products Standard is intended to provide standardization on the removal of prohibited foreign products and technologies from State of Wisconsin IT Systems. This standard applies to all State of Wisconsin Executive Branch agencies, where statutorily authorized under subchapter VII of Chapter 16 but excluding the Board of Regents of the University of Wisconsin System. Executive Branch Agencies shall develop policies, procedures, or processes for their own State information and systems to protect State information, where applicable. Non-executive branch agencies are also strongly encouraged to adopt and implement this standard.

Standard

The Wisconsin Department of Administration (DOA) Division of Enterprise Technology (DET) is responsible for establishing, and has already established, security and safeguards for State information and information systems (Wis. Stat. §§ 16.971-16.975). DOA-DET is led by the State Chief Information Officer (State CIO) and State Chief Information Security Officer (State CISO) who continually monitors cybersecurity and implement all feasible technical means to ensure the security of all State information and information systems.

Using information gathered through state, federal, and industry-led intelligence, certain vendors, and products currently present an unacceptable level of cybersecurity risk to the State, including products and applications where the State has a reasonable belief that the manufacturer or vendor may participate in activities such as but not limited to:

- Collecting sensitive citizen, financial, proprietary, intellectual property, or other business data
- Enabling email compromise and acting as a vector for ransomware deployment
- Conducting cyber-espionage against government entities
- Conducting surveillance and tracking of individual users
- Using algorithmic modifications to conduct disinformation or misinformation campaigns.

Pursuant to Governor Evers' Executive Order #184 and Wis. Stat. §§ 16.971-16.975, DOA-DET shall continue to use information gathered through state, federal, and industry-led intelligence to investigate vulnerabilities presented by products from foreign vendors. If the State CISO determines that there are security vulnerabilities or deficiencies in any State information systems, the State CISO may determine and direct or take actions necessary to correct or remediate the vulnerabilities or deficiencies, which may include requiring the information system to be disconnected.

Products Subject to this Standard:

Given that technology rapidly evolves and changes, it is not feasible to provide a complete list of prohibited products in this standard. In collaboration with the Governor, the Office of the Governor, and state, federal, and industry-led intelligence, DOA-DET shall continue to evaluate and identify applications and vendors. Due to the risk presented to state information or state information systems, the following list of applications/products are prohibited from being implemented on, or connected to any State network, or installed on any State-issued device, including but not limited to desktop computers, laptops, tablets, cellular phones, and other mobile devices.

The State CISO shall communicate any identified prohibited foreign products to the Wisconsin Information Sharing and Analysis Committee (WI ISAC) and Agency IT Directors, per DET's normal communications processes.

As of 1/12/2023, the following vendors and/or software are prohibited from being utilized:

- TikTok
- Huawei Technologies
- ZTE Corp
- Hytera Communications Corporation
- Hangzhou Hikvision Digital Technology Company
- Dahua Technology Company
- Tencent Holdings, including but not limited to:
 - Tencent QQ
 - QQ Wallet
 - WeChat
- Alibaba products, including but not limited to:
 - AliPay
- Kaspersky Lab

Required Actions:

DOA-DET shall monitor adherence to this standard and assist impacted Executive Branch agencies to ensure they are able to comply with this standard. DOA/DET, the State CIO, and State CISO shall provide support including, but not limited to:

- Developing and implementing a plan to remove any prohibited hardware products from State networks.
- Removing any prohibited software products on State networks.
- Implementing measures to prevent the installation of prohibited hardware and software products

on State-owned, State-leased, or State-managed technology assets.

- Implementing network-based restrictions to prevent the use of, or access to, prohibited services.
- Incorporating the risks associated with these technologies into security awareness training.

Definitions

Executive Branch Agency – Has the meaning given under subchapter VII of Chapter 16 but excludes the University of Wisconsin System pursuant to Wis. Stat. § 16.971(2)(j). Agency or State Agency may be used interchangeably with Executive Branch Agency.

State information - Any information that is created, accessed, used, stored, or transmitted by an Executive Branch Agency.

State information systems and system environments - All equipment or services used to input, store, process, transmit, and output information, including, but not limited to network devices, servers, databases, printers, Internet, email, physical, virtual, cloud, and applications accessible to and/or managed by the agency.

Information Asset – All State information and State information systems and environments.
