

A. AT&T will provide a 7% discount on the transport rates for all customers at bandwidths of 1.5 Mb and above on the current network provided the TEACH spending levels remain at \$1.6M or more per month. These new rates will begin with the November 2016 billing.

B. AT&T will not bill the \$342,150/Mo MSP charge for the first six months (August 2016-January 2017). The \$342,150 will begin billing on February 1, 2017 and the Term of the agreement will begin at that time.

C. Per Section 5 of the Managed Services for BadgerNet Converged Network Contract the rates and charges set out in this Exhibit 6-Pricing are fixed during the Term of the Agreement unless mutually amended by the Parties and are exclusive of any applicable taxes, regulatory fees or surcharges.

D. A twelve (12) month minimum commitment is required for any circuit or termination penalty will apply which will be calculated at 50% of the price over the remaining Term

E. Not to Exceed One-Time Construction Cost for Fiber Installation at \$80,000.00 per mile consists of: entrance facilities to the minimum point of penetration, non-reusable fiber construction, and non-reusable equipment necessary to provide the bandwidth requested at any individual site.

F. Definition of Special Construction: The not-to-exceed price per mile includes entrance facilities to the minimum point of penetration, non-reusable fiber construction, and non-reusable equipment necessary to provide the bandwidth requested at any individual site. Any fraction of a mile can be rounded up to the next full mile.

G. As of 03/26/2017, Category C-Symmetrical Services is deleted, MIS on BadgerNet is extended to all BCN Customers and Agencies

H. As of 03/26/2017, ISP services from WiscNet are available on BadgerNet, see pricing tables on worksheet entitled "WiscNet on BadgerNet" WiscNet will provide Dual Stack (IPv4/IPv6) capability and allocate IP addresses to BCN Customers and Agencies of the WiscNet on BadgerNet Services.

I. As of 03/26/17, BCN Customers and Agencies understand and agree that they can not resell or provide, at no cost, internet services under this agreement to third parties.

J. Per Amendment 3 (June 2019):

- Pricing for the services in this Exhibit that are provided outside of Wisconsin shall be priced as ICB for all bandwidths.
- Pricing for BadgerNet CAT A, B, and D services above 1Gbps of bandwidth shall be ICB
- Category C-Asymmetrical pricing has been replaced in its entirety and is now a separate Tab. The revised structure provides the same pricing available at a particular location (anticipated availability determined by site address during a pre-qualification process by AT&T). The services associated with implementation, management, and consolidated billing of the broadband service have been broken out along with guidance for a new broadband service is being implemented or taking over an existing broadband service (see AT&T Internet on BadgerNet tab)
- BadgerNet Pricing tab, under the State Data Centers, Broadband Internet Service Symmetrical, the \$16,745.42 charge is replaced with "ICB." AT&T agrees that all or any ICB prices proposed for the listed locations or any others shall be less than \$16,745.42.
- WiscNet on BadgerNet tab has been changed to indicate Table 1 pricing is Not-to-Exceed; WiscNet on BadgerNet Connect +1 is for additional 1 Gbps connections to be added at \$100/month per additional connection (see #9 of Notes section); and the removal of named customers no longer on BadgerNet (Pittsville, Swallow, Suring, Mukwanago and Northern Ozaukee school districts)
- BadgerNet Pricing tab, addition of Traffic Shaping services for DET
- Added on BadgerNet pricing tab 200Mbps and 500Mbps Options to Category A, Category B, and Category D where available.
- Added on the WiscNet on BadgerNet tab, Table 3 Pricing for Eligible Non Profit Organizations
- Added a New Tab for Secure Internet Bundle
- Remove Managed Video Service Offering from BadgerNet Pricing Tab as it is no longer available
- AT&T Internet Service to its own tab similar to the WiscNet tab.
- Replaced the CAT C IPBB pricing to reflect services and pricing that are currently available
- Removal of Frontier from the Category C IP Broadband offering
- Category C - clarification of Broadband and Broadband II for Circuit type

K. Per Amendment 4 (June 2020):

- Removal of column for the “One-Time Fees for Network Access Up to 1GB”
- Rename the column titled “One-Time Fees for Network Access 1G and 10G” to “**Not to Exceed** One-Time Fees for Network Access Up to 10G”

TABLE B - Other Fees Not Mentioned Above		
Remote Site Fee	\$1,500	Per Site Per Year, Billed Monthly

NOTES:	
1. Customers ordering WiscNet services must be WiscNet members (https://www.wiscnet.net/)	
2. Pricing assumes 1 port at each speed	
3. All annual fees quoted include transit to the full capacity transport link	
4. Billing is on a monthly basis	
5. Remote Site means a qualified BCN Customer may have both a (1) BCN transport connection with WiscNet on BadgerNet Service(s) that serves its primary location (or its primary wide area network) and also (2) additional fully-provisioned and monitored BCN transport connections	
6. WiscNet may provide, configure, maintain and manage the CPE device providing Layer 2 and Layer 3 Internet services to BCN Customers and Agencies of WiscNet on BadgerNet. (One-time fees in Table 1)	
7. BCN Customer or Agency purchasing WiscNet on BadgerNet Service agrees that WiscNet can act on their behalf and agrees to the Letter of Agency (LOA). LOA will be provided prior to order placement.	
8. The entities listed in Table 2 below are existing WiscNet BCN Customers on current multi-year WiscNet contracts that extend into the term of a WiscNet on BadgerNet contract and who has agreed pricing would not match Table 1 pricing and are grandfathered through their respective terms.	
9. Second and subsequent 1 Gbps connections are available for \$100.00 a month for sites requiring ISP service at an existing location. The first WiscNet service will be provided at existing contracted rates. The second and any subsequent 1 Gig connections would be called WiscNet on BadgerNet Connect +1 and would be \$100.00 a month.	

TABLE 2. Grandfathered WiscNet BCN Customers

Member Name	End Date of Multi-Year Agreement	FY18	FY19	FY20
Racine Lutheran High School	6/30/2019	\$6,930	\$7,275	

TABLE 3. WiscNet on BadgerNet Pricing: Eligible Non-Profit Organizations

EXTENDED BROADBAND ACCESS PRICING

Table 1 below contains the monthly recurring and non-recurring Charges associated with each Extended Broadband Access circuit. All Extended Broadband Access circuits require helpdesk services. From time to time the bandwidth provided with a Service may be increased without prior notice to Customer. In no event will the bandwidth be reduced without prior agreement of Customer. In the event that the bandwidth associated with a particular circuit is decreased, Customer will have the option of disconnecting that Site's Extended Broadband Access without penalty, retaining the service or upgrading to an alternate service at the then current rate. Pricing in Table 1 below applies only to new Services.

Table 1										
Product	Circuit Type	Service Provider	Bandwidth	MRC	NRC	Pro Install	CPE	Term	Early Termination	IP Type

Pure Broadband ADSL	DL-ADSL	CenturyLink	18.0M x 1.5M	\$121.92	\$22.99	Included	R	12	remaining months of term but not > \$200	1 Static (addl at \$10 each)

Notes to Tables:

(1) Pricing applies to new circuits only with the exception of Product Codes with a suffix of “-UP” which can only be applied to existing services from the same Underlying Service Provider.

(2) Pricing does not include taxes, fees or CPE shipping.

(3) Install Charge is based upon installation within a specified distance of a metropolitan area; additional Charges may apply for installation outside of those metropolitan areas.

(4) Any non-recurring charges that were waived for a circuit shall be due and payable in addition to the Early Termination charge.

(5) Some markets will deliver 60M x 5M or 100M x 5M rather than 100M x 10M until network upgrades are complete.

(6) The bandwidths and pricing available from Altice (West/Suddenlink) will not be available for the term of this Agreement. Suddenlink has been acquired by Altice and prices are subject to change.

(7) Broadband is typically the IPDSL service (copper to the premise) and Broadband II is fiber to the building/fiber to the prem

Table Key:

- Product Code** – The AT&T identifier associated with Extended Broadband Access.
- Circuit Type** – The applicable broadband technology.
- Premises Type** – “B” is for Commercial or Business Sites; “T” is for Teleworker or Residential Sites; “A” is for all Sites.
- Service Provider** – The Underlying Service Provider delivering the Extended Broadband Access.
- Bandwidth** – The maximum download and upload speeds associated with the Extended Broadband Access. Note that Bandwidth delivered may vary from the stated maximum.
- MRC** – The Monthly Recurring Charge for the Extended Broadband Access.
- NRC** – The Non-recurring Charge for the Extended Broadband Access. The NRC includes all one-time Charges including installation (if required), standard CPE and activation.
- Pro Install** – The Charge for a professional installation. If professional installation is required, its cost is included in the NRC.
- CPE** – Indicates whether the equipment is provided on a rental (R), rental with a separate monthly modem fee (RF) or purchased (P) basis. The cost of CPE provided on a rental basis is included in the MRC except where identified with “RF”. Where a separate monthly modem rental fee is required, a modem rental fee is represented in Table 2 of Schedule 2.
- Initial Minimum Term** – Specified in months, a value of “0” indicates that there is no Initial Minimum Term.
- Early Term & Early Termination** – The Early Termination Charge associated with termination of the Service prior to expiration of the Initial Circuit Term.

IP Type – The number and type of IP addresses included with the Service. The first character indicates the number of IP addresses and the second character indicates the type of IP address. A type of D indicates dynamic IP address, a type of S indicates static IP address and a type of P indicates persistent IP address. More than one value indicates that AT&T may select the type of address(es) provided at no additional

*** - All MRC and NRC charges require the additional Provisioning and Enablement, First Call Tech Support (helpdesk), and Consolidated Billing services per the following rates:**

Services Description		Charge
BROADBAND AGGREGATION SERVICES		
Initial Broadband Provisioning and Enablement - One time Charge per circuit; Includes: Service Qualification, Service Order Placement, Service Order Management, and End User Enablement.		\$119.90
AT&T Consolidated Billing – Charge per Site, per month; (Pricing based upon AT&T providing a single consolidated corporate invoice)		\$6.12
First Call Tech Support – Charge per broadband circuit, per month		\$15.59
Broadband Registration – for Help Desk support of Sites not provisioned by AT&T, one time Charge per circuit		\$41.97
End User Enablement – for Sites with broadband not provisioned by AT&T, one time Charge per circuit		\$47.96
Moves (Broadband) – per move, one time Charge		\$119.90
Changes – May incur ISP Charge	No Charge with the selection of Help Desk	
Terminations – May incur ISP Charge		

Secure Internet Bundle

AT&T FlexWare (previously known as AT&T Network Functions on Demand) is a managed service that allows Customers to deploy and use one or more Virtual Network Functions in conjunction with associated AT&T Equipment which may be included in the Customer's solution. Virtual Network Functions are networking capabilities, such as routing, WAN acceleration, and security services, such as firewalls and intrusion detection, which can all be virtualized as separate VNFs, that have traditionally been implemented in single-purpose hardware appliances and can now run as virtualized software instances at various Sites across the Customer's network.

The Firewall virtual network function may be ordered as Essential or Enhanced with either AT&T or Customer managed options.
