

DET Connections

Division of Enterprise Technology Team,

The following employees have joined DET. Please help me in welcoming them to our division.

[Trevor Carpenter](#) – works as a contractor at Femrite for the Bureau of Infrastructure Support in the LAN/VOIP Connectivity Services. Trevor joined us from the Department of Children and Families and will focus on supporting the DCF on-premise Voice Over IP service, Automated Call Distribution and other converged voice services.

[Tony Kocheł](#) – joined our Bureau of Infrastructure Support as a contractor at our Femrite location. He works for the Converged Cloud Provisioning Services.

[Jonathan C. Keefe](#) – works as a network engineer at our Femrite location and is providing support for Local Area Network (LAN) and Wireless Local Area Network (WLAN) configurations and deployments. Jonathan focuses on wireless services and assists with some Local Area Network Projects as well. He enjoys playing board games with family and friends. Jonathan is a musician and a digital artist. He loves the outdoors to kayak and hike.

[Sindhura Nadipelli](#) – joined our Software Solutions section as a Dot Net Developer at our East Wilson office. She is currently working on HEPlus projects.

[Mark Dorney](#) – Is located at our Femrite location and is our Technical Architect for the Mainframe Infra Services section. He splits his time with DET and the UW to help maintain the mainframe operating system.

[Mohammed M. Shaikh](#) – works for the Bureau of Infrastructure as a contractor at Femrite. He supports the Database/Data Communications.

[Steven \(Steve\) Kohl](#) –joined our East Wilson office as a Desktop Support Technician. He takes escalations from the Service Desk for IT related issues or requests, which includes software installation or peripheral deployments. Steve says that he knows a lot about cars and loves to talk about them.

[Vue Xiong](#) – is located at our Femrite location and is a contractor for the Bureau of Infrastructure Support. Vue works for the Enterprise Service Desk.

[Romita Saha](#) – joined us as an IS Enterprise Systems Development Services- Specialist at East Wilson. She currently works on the Development Cherwell Application for associated state agencies.

Brad Baker – is the new Enterprise Technical Architect on 8th floor of East Wilson. He came from DWD where he worked as a Technical Infrastructure Architect since 2010. Brad has extensive experience with Cisco, Citrix, Microsoft and VMWare systems. He is working on various technical architecture reviews, projects and various tasks. The initial projects that Brad will be working on are cloud, Identity Access Management, and rationalization of infrastructure projects. Brad says that he often gets told that he looks just like Mr. Incredible from the Disney Pixar movie “The Incredibles”.

Joseph (Joe) Keuler – has joined the Innovation Center as Enterprise Business Process Specialist at our East Wilson office. He will be looking for innovative solutions to reduce development costs, increase customer satisfaction, and empower end-users to leverage the capabilities of the platform that a solution is delivered in. Joe recently became a first-time parent and now has a new baby girl!

Mirza Baig – has joined our East Wilson location as a contractor for the Bureau of Technical Architecture and Project Management in the Administrative Office. He currently works on Infrastructure Project Management.

Mary Seppa – works for the Bureau of Infrastructure Support as a staff member at the Enterprise Service Desk. Mary is located at our Femrite location.

Marisa Weich – has joined the Policy Office as Communications Specialist Intern at our East Wilson Office. She is currently a senior at UW-Madison graduating in December of 2015. She will be working with us full time starting January 2016.

Veera Oruganti – joined our Femrite location as a contractor for the Bureau of Infrastructure Support. Veera works with the Database/Data Communications and provides SQL Server database support and administration.

Larry Boyer – joined the Femrite Data Center and works with Database/Data Communications. Larry is a transfer from DWD. He is providing SQL Server support.

Debbie Clay – joined the Femrite Data Center in the Applications Hosting Section and currently provides support for the AHT/Web Platform Services Team. Debbie is from the Department of Workforce Development (DWD) and will help us transition and support the DWD IIS and F5 services for various web applications.

Scott Martin – works as a contractor for the Bureau of Infrastructure Support at our Femrite Data Center in the Applications Hosting Section and provides support for the AHT/Web Platform Services Team and provides support for IIS, Citrix and other vendor provided solutions. Scott joined us from Department of Health Services (DHS).

Fred Hunt – works as a contractor at Femrite for the Bureau of Infrastructure Support in the LAN/VOIP Connectivity Services. Fred joined us from the Department of Children and Families and will focus on supported the DCF on-premise Voice Over IP service, Automated Call Distribution and other converged voice services.

[Pam Benisch](#) – took a new opportunity within DET and moved from the Femrite Data Center to the 101 E. Wilson Street location where she will maintain many of her current responsibilities such as being a primary contact for payments. She will also create first impressions and assist DET staff at the reception area. We look forward to the change for Pam and the experience she brings in the purchasing process for DET.

[Erik Hooverson](#) – recently joined the Collaboration Services Team at our Femrite location. Erik joins us from the Department of Transportation where he has worked closely with the Collaboration Services Team supporting Enterprise e-mail for DOT.

[Ryan Baker](#) – joined the Innovation Center at our East Wilson Office. Ryan works as an IS Enterprise Systems Development Services – Specialist. He will be consulting with state agencies on modernizing their systems using a tool set of solutions. His first job was with the State for the Department of Commerce in the early/mid 2000s, where he managed several Wisconsin.gov portal initiatives. Ryan has also held positions at DATCP, DNR, and WEDC. As a member of the DET team, Ryan strives to bring a positive, friendly, “how can I help” attitude to the organization. Ryan is a proud father of three boys and a huge Star Wars fan.

We had the following promotions in DET:

[Tyler Haglund](#) – Please welcome Tyler, a familiar face, as a DOA Program Specialist to the Division and The Bureau of Publishing and Distribution. Tyler has worked at BPAD as a contractor with Spherion since August of 2007, fulfilling many different roles from Inserter Operator, Inserting Shift Supervisor to Customer Service and Production Support. He brings a wealth of knowledge and experience to his role in Distribution Customer Support. A role in which he has already proven his ability to meet or exceed our customers' expectations.

[Trina Zanow](#) - Trina accepted the position of Director of the Bureau of Infrastructure Services. Trina assumes her role replacing Jim Schmolesky who retired in August. Trina has been with DET for the past 10 years and has served as Section Chief over Application Hosing, Chief of Database Support and Assistant Bureau Director for the past two years. Over Trina's 10 years with us she has gained valuable operational experience and has become a valued member of our Senior Leadership team. Trina has demonstrated her ability to motivate and lead staff through very difficult operational incidents. She also has proven her ability to set vision, set direction and execute day in and day out.

[Joe Patterson](#) – is the new DET Director of Publishing and Distribution. Joe replaced Tim Smith who retired in August. He has been associated with DET for the past 13 years as the Site Supervisor and Manager for Spherion, DET's managed services provider. Joe has been responsible for leading and managing the day to day operations of our managed service group during his tenure with Spherion. He has repeatedly been able to demonstrate his leadership, professionalism, customer service attitude and passion for quality while partnering with DET's leadership team.
