

Classification Title: Tableau Developer

Working Title: Tableau Intern

Type of Employment: LTE

DIVISION Enterprise Technology

POSITION TYPE Student Employment

SALARY LEVEL \$18.00/hour

WORK EXPERIENCE <2 years

Description:

This position will provide Tableau visualization support to the Wisconsin Department of Administration for Enterprise IT and assist in implementing enterprise-wide data and information architecture to support business intelligence. The position will work closely with a wide variety of Enterprise IT initiatives and programs, combining knowledge of technology and business management to deliver advanced business intelligence solutions and to improve efficiency.

The intern will have the opportunity to get an overview of DET (a complex and large IT organization), but also become an integral part of the policy section and work closely with other areas of DET.

Duties include:

- Develop Tableau Visualizations for State CIO.
- Interpret data, analyze results using statistical techniques and provide ongoing reports.
- Create interactive dashboards.
- Produce metrics and other report objects and components.
- Work with the Policy Office and Architecture Bureau to identify and resolve data related issues.
- Work with business departmental teams to help them define and document business requirements for new metrics and reports.
- Ensure that tableau visualizations integrate with our current communications, marketing, and website.

Experience and Skills:

- Basic knowledge of data analysis, statistics, and experience using statistical packages for analyzing large datasets
- Analytical skills with the ability to collect, organize, and analyze significant amounts of information
- Student majoring in Mathematics, Economics, Computer Science, Statistics, Marketing, Communications, or a related field
- Attention to detail and accuracy is a must

Contact: Please submit a cover letter and resume to Dana Burmaster at doadetpolicyoffice@wisconsin.gov.
