Project Description – Enter a brief description of the project, including the business case for it and its major deliverables.

The purpose of the WICS 4.1 Inmate Banking, Canteen, and Payroll project is to smoothly transition business functions and workflows related to DAI Financials from the WITS system to WICS. The project will handle the conversion of some legacy data from WITS into WICS, the design and implementation of necessary reports and web services or interfaces, and the implementation of related WICS functionality. This project will also likely include significant business changes to improve efficiency in DAI workflows and increase the likelihood of business workflows functioning well within the WICS structure.

The specific work functions include: Inmate Banking, Canteen, Payroll, Related reports, and Interfaces / web services.

Project Funding – Please describe all sources of funding for the project, which should add up to the estimated project cost cited above.

GPR 1m (620k master lease)

Project Status – Determine the status for the Schedule and Budget categories below based on the guidelines on the right and described in more detail on page 2 of this document.

Insert an X in the column that best describes the status of the category. Add comments for that category as needed.

Additional comments are not required if the status is Green, but if a category has a status of Yellow or Red, describe the issues or problems and what actions the agency is taking to address them.

STATUS COLOR INDICATORS	
Green	On target as planned
Yellow	Encountering issues (e.g., Schedule or Budget over by 10% to 25%)
Red	Encountering problems (e.g., Schedule or Budget over by 25% or more)

Schedule Status WICS 4.1 functionality was implemented at the end of June as planned. All functionality has been installed in production, although, turned off from a security perspective until conversion takes place. The conversion and go-live is set for November 1 st . Final rounds of user acceptance testing in preparation for conversion and production utilization has been scheduled in August. Remaining reports will be developed by the end of August. Two months have been allocated to training and regression testing. Conversion date was moved to provide more time for testing, defect resolution and training.	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Budget Status On track. Master lease reimbursement was requested and received.	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Summarize Any Completed Major Tasks or Project Phases:

System testing completed. Multiple rounds of user acceptance testing completed as well. All functionality for this release has been installed in production. 32 open critical/high tickets remain - the team is working through these. Developed conversion process and conducted initial testing. Reports, conversion, and interface testing continues. Began preparing training materials.

Summarize Any Significant Project Changes Affecting Schedule, Budget or Scope:

For each change, describe what the change involved, when it was approved, and the reasons behind the approved change. Conversion timing may conflict with STAR. Specific conversion timing at risk until the full impact of STAR training, go-live, and transition is fully understood. Currently targeting November 1st conversion for WICS, following the STAR implementation in October.

A change request to add canteen financial functionality was approved and implemented (wrapping up remaining defect resolution for this now). In addition, several tickets have been opened to address additional changes needed to support DOC inmate banking, canteen, and payroll processes.

Additional Comments or Issues (optional):

If you have any additional overall status comments about the project (e.g., project news, accomplishments, emerging challenges or risks that could affect the project), please provide them here.

We found that the current receipt printers will work with WICS 4.1.

Completed testing of flatbed scanner. Costs for these devices have been budgeted for fiscal year 2016, as needed. Purchasing and deployment of these peripherals will take place in August and September, prior to the WICS 4.1 conversion.
