Anytime Audio with CenturyLink Reservationless Conferencing

Reservationless Audio Conferencing is an always available, personal meeting solution that allows you to host convenient and cost-effective conference calls for up to 300 participants - with all of the meeting management features that you need to make meetings run smoothly and productively.

Meeting Management Features

Reservationless Audio Conferencing offers convenient, secure and flexible features to enhance the quality of your meetings.

- One click to schedule your meeting using Outlook® integration
- Mute/un-mute capabilities and individual volume controls
- 24/7 help desk assistance while in conference *0
- Recording at the touch of a button
- Disconnect unwanted participants and lock call for added security
- Integration with CenturyLink Web conferencing for a true collaborative meeting
- Online account management to view meeting reports, access recordings and adjust preferences

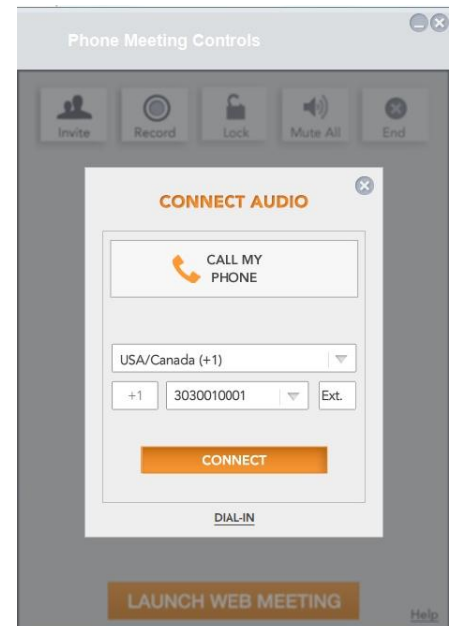

Security

Increase the security levels of your meeting with these features.

- Announce participant names as they enter or exit the meeting
- Keep participants on hold until the moderator joins the call
- Additional passcodes can be required by the moderator

Easy Mobile Access

CenturyLink provides unique access to Reservationless audio conferencing for professionals who participate in meetings while on the road. When Reservationless calls are scheduled through Outlook integration, a dialing link is included in the invitation. This feature integrates access information into the Location field, so all iPhone® and Blackberry® users have to do is press one button to be connected. It's that simple.
