This file describes the custom fonts available to state agencies for use on AFP printers. Both 240 dpi and 300 dpi versions of the fonts are available for use on VPS configured printers.

LR15

Letter Gothic 15 is a fixed pitch font with 15 character per inch spacing. It is sans serif, making it readable at small sizes. It has a higher x-height than GT15 (Gothic), increasing readability in small sizes.

LR20

Letter Gothic 20 is a fixed pitch font with 20 character per inch spacing. It is sans serif, making it readable at small sizes. It has a higher x-height than GT20 (Gothic), increasing readability in small sizes.
