

## AT&T Conferencing with Zoom

AT&T Conferencing with Zoom is a cloud-based, real-time, multi-tenant collaboration and productivity solution. The Service provides Customers with an array of collaboration tools including content sharing, group messaging and presence along with audio, video and web-conferencing capabilities. Separate Internet access is required to use the Service.

Zoom Meetings is an audio, web and video conferencing solution. Users can host up to 300 participants per meeting. HD Video, Data Sharing, Breakout sessions and a full set of collaboration features are available with the Service.

Zoom Meetings are available in two models for the State of Wisconsin: Cost per Minute and Named Host. Voice over computer usage is included in both models; PSTN usage is charged separately under the AT&T Global Audio Conferencing service.

In the Cost per Minute model, usage is calculated on a per-minute per Participant basis. Calculation of usage begins at the time the first Participant connects to a Zoom session and ends when either the last session Participant disconnects, or the meeting coordinator terminates the session.

AT&T Conferencing with Zoom telephony integration allows Registered Users to use Zoom Call Me to dial out to join a Participant to a session, perform audio monitoring functions such as mute, unmute, and expel Participants and view who is speaking. Each leg of an audio conference bridge that utilizes the Call Me function will incur a cost per minute for as long as they are on the audio bridge. The cost is \$0.043 per minute per participant.

### Zoom Named Host

Zoom Named Host licenses are purchased and assigned to individuals within an agency organization. Each Named Host license has a monthly recurring charge which entitles the user to host unlimited number of web meetings monthly, including voice over computer usage. Each meeting can have up to 300 participants. PSTN audio conferencing charges associated with Zoom web meetings are additional.

<b>Zoom Named Host</b>			<b>Per Month</b>
Zoom Named Host, 300 Participants			<b>\$8.00</b>
Zoom Cost per minute per connection			<b>.084</b>
